

FACT SHEET

SEASON 2021

SUL Summer in the bubble, also referred to as the SUL Bubble, is the isolation zones at Queen's College in Taunton, UK, and at Abbey College, Malvern, UK that are created by the SUL Education to protect its staff and students from the COVID-19 pandemic during the The Amazing Experience summer programmes of the 2021 summer season. 200 8-17 y/o students are invited to participate from the 18th of July, with the programme being held behind closed doors and students staying at the Queen's College in Taunton and Abbey College in Malvern.

The bubble is an investment by the SUL Education to protect 2021 season, which was initially suspended by the pandemic in 2020.

Queen's College is located in Taunton, the county town of Somerset, England and offers a high standard of accommodation and an excellent range of facilities. We run five programmes in this beautiful boarding school.

We share the same values which are stated in the college's motto: Non scholae sed vitae discimus (We educate not just for school, but for life.)

Programmes at Queen's College:

Facilities:

On-site facilities	 DATES	18-31 July, 2021 1-14 August, 2021

	 TRAVEL	Exeter (30 min.), Bristol (1 h.), London Heathrow (3 h.), Plymouth (1 1/2 h.)
	 ESSENTIALS	SUL League

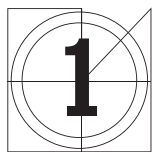

EXPERIENCE
IS
GREAT
BRITAIN

SUL's Experience is Great Britain programme is a perfect choice for international junior students who are aged 8+ seeking a truly British experience. It combines on-campus English lessons with action-packed daily activities and excursions outside the classroom. These provide a wealth of history, culture and interesting places to enjoy.

Great Britain Experience programme runs in Queen's College, which is located in Taunton, the county town of Somerset, England. This beautiful boarding school offers us a high standard of accommodation and excellent range of facilities.

TAKE MOVIE

"They did that in one take" is always an impressive statement to make about any film! Getting a scene down in a single take means everyone experiences a moment of perfection, or is it just pure luck?

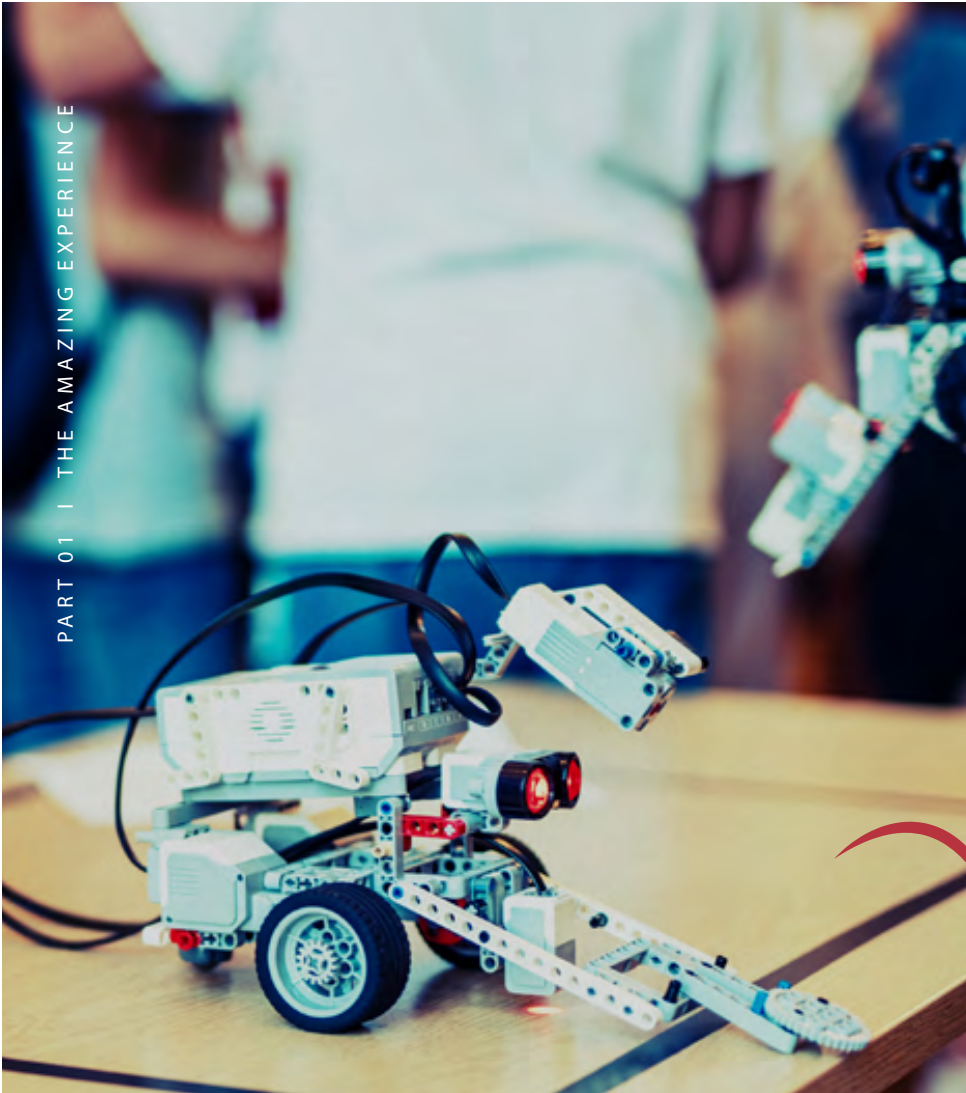

SUL will run this exciting One Take Movie programme in 2020. We are proud to provide young filmmakers, aged 12 to 17, with a unique experience in the art of cinema.

Incorporating both theory and practice, our courses will teach students how to operate equipment and work on a set while providing a clear understanding of the fundamentals of how the art of cinema works.

At the end of our course, students will have written, filmed and edited a high quality One Take Movie, which we will premiere on SUL's YouTube channel.

Movies in 2019:

From our regular daily life to cutting-edge technology, Robotics Summer Lab offers an astonishing quest to explore the wonders of robotics through this Amazing Experience.

In cooperation with the Robotics Academy, we have designed this combined English and Robotics summer programme to help younger students learn English while developing the core concepts of problem solving and programming.

This course is ideally suited for children who love to be creative and find their own solutions to problems.

Every day, our students will be able to build their own LEGO robots and use them to solve everyday problems and answer questions. Students will use their creativity to improve on a robot's basic design, all the while learning advanced concepts.

Every week will be packed with fun excursions and exciting challenges designed to test the limits of students' robots. The robots will be navigating their way through mazes, overcoming obstacles and battling against each other.

In cooperation with:

Nintendo

CREATIVITY

WORKSHOP

Get creative and make yourself stand out! The Nintendo Creativity workshop goes above and beyond regular English + Coding courses. Surprisingly, students will be using computers less than they do in their daily lives.

In cooperation with the Robotics Academy, we have designed this English language, creativity and coding summer programme to help younger students learn English while developing the core concepts of problem solving, as well as principles of engineering, physics, and basic programming. This course is ideally suited to the younger generation who love to be creative and find their own solutions to problems. Every week, our students will be able to create and build their own DIY kits, which are crafted to work with the Nintendo Switch. Students will build creations from cardboard and bring them to life by programming their console, which they will receive upon arrival.

Every week will be packed with fun, excursions and exciting challenges. All students on our creativity course will have an opportunity to discover how I.T can be used in our regular life and how it all works together. Students will free their curiosity and start exploring!

In cooperation with:

Included:

NEW Rabbids GAMING ACADEMY

From our regular daily life to cutting-edge technology, Rabbids Gaming Academy offers an astonishing quest to explore the wonders of game coding and design and help The Rabbids to invade space through this Amazing Experience.

In cooperation with the Ubisoft, we have designed this combined English and Gaming summer programme to help younger students learn English while developing the core concepts of problem solving, programming and digital design.

This course is ideally suited for 8-12 y/o children who love to be creative and find their own solutions to problems. It combines on-campus English + Rabbids coding and game design lessons with action-packed daily activities and excursions outside the classroom. These provide a wealth of history, culture and interesting places to enjoy.

Every day, in true Rabbids-style, using blocks of code students will try to turn the Rabbids spaceship upside down! Students will need to give instructions to clear up the mess Rabbids have created.

Every week will be packed with Rabbids, fun, excursions and exciting challenges. All students on our Rabbids Coding Camp course will have an opportunity to discover how coding can be used in our regular life and how it all works together. Students will free their curiosity and start exploring!

In partnership with:

In 2020, our Amazing Experience programme offers a cohesive English and singing skills course for all students from 8 to 17-years-old. It is our aim to provide a music course for our International students which will help them be able to join a group (a band or choir), or to perform individually.

Music is an art form in which many different skills, cultures and forms of creativity come together. At SUL, we create an environment where music is always present. Children will be educated to develop their singing skills, whilst at the same time being encouraged to use music as a creative outlet in their lives.

Students will have the opportunity to explore music in engaging new ways, develop musical skills, learn hands-on games and warm-ups and work collaboratively. Our students will give group and individual performances on a weekly basis to the participants of The Amazing Experience Programme at Queen's College.

In cooperation with:

WEEKLY PROGRAMME WEEKS 1-2

Day		Morning			Afternoon			Evening			
		07:45-08:00	08:00-08:30	08:30-12:00	12:00-12:45	12:45-14:45	14:45-18:00	18:00-18:30	18:30-19:00	19:00-19:30	19:30-21:30

WHICH TEAM

WILL BE YOURS?

SUL LEAGUE CATEGORIES

Academic achievement

Got the brains to be the best? Win points by answering questions, achieving goals and producing outstanding work.

Participation

Get involved to score! Show your energetic side and get involved in games, songs and activities to score points for your team.

Language

Gain points for showing an excellent grasp of new language learnt. Lose points for failing to use English in the class.

Environmental awareness

At SUL we look after our environment, and we want you to do the same. Look after your possessions, your classroom and the school grounds to gain points. Fail to do these things, and you will lose points.

Social awareness

Respect towards your teachers and classmates is important, and good manners cost nothing. Show these traits to gain points. Show disrespect, or behave poorly towards the people around you, and you will lose points.

SUL League is a system which helps to enhance the academic and social programmes at SUL, as well as increase the level of students' integration into an academic process and plays an important part in educating the ones who are passionate for learning.

The SUL League is an exciting and inclusive opportunity for our students to get involved in a Global Project, where students from all over the world compete to become SUL League Champions! Four teams, five categories to score points in. Which team will be yours?

Seeing the concentration, teamwork, sense of accomplishment and joy during the robotics, coding, music, or movie making experience was truly magical

Andrew Tappin, [SUL Centre Manager at Queen's College](#)

SUL Education is based in Cornwall, in the south west of England, delivering English language experiences embracing British culture. Even the company name SUL is of Celtic origin meaning sun, creatively interpreted as enlightenment through education.

SUL is a friendly and caring company that makes great efforts to ensure every student is happy and safe during their stay. SUL aims to deliver life-changing experiences that will enhance every student's future opportunities.
